

BLAME SHIFTED IN BRIBERY CASE

Congressmen Hear Further
Details on Shipping
Board Scandal

NEW YORK, Dec. 1.—John Cranor, assistant to the head of Wallace Downey Shipbuilding corporation, today denied allegations of Tucker B. Sands, former Washington banker, before the congressional committee investigating shipping board affairs, that he knew anything of a division of a \$40,000 "bribe" fund for procuring contracts of the board, in connection with which the name of R. W. Bolling, shipping board treasurer, and brother-in-law of President Wilson, had been mentioned.

Cranor testified that while he was in Washington the Providence company was endeavoring to procure a contract for the construction of ten tugboats and that he learned that the financial standing of the concern was "not satisfactory" to the board.

Cranor said that Mr. Downey sent him to Washington to arrange a credit for the Providence company and took the latter of Sands, who was then vice president and cashier of the Commercial National bank. The bank then issued a credit letter to the extent of \$125,000 to the shipping board for the Providence Engineering corporation.

The witness said that he had agreed to pay Sands \$40,000 for arranging this credit.

Mr. Downey and Sands eventually agreed on \$25,000, Cranor said.

William Denman, first head of the emergency fleet corporation, testified that there never had been any controversy between himself and Major General George W. Goethals, associated with Denman when the fleet corporation first was instituted, over the "wooden ship controversy."

Denman said at no time was he in favor of wooden ships except as a war emergency or as auxiliary to steel vessels.

Lester Sisler, secretary of the shipping board, resumed the stand and reiterated his previous story, denying improper business relations with the board.

A Very Unusual Offering For
This Week

Men are learning that it pays to shop for shoes in the new Downstairs Shoe Store. The fact that the expenses are so very low down here, is the principal reason for the values being so good.

The shoe sketched is our usual \$10 genuine calf skin. In the new shade of brown—correct English style—the soles are of stout oak leather which makes them long wearing and at the same time neat, light and pliable.

There is every width from A to D and every size from 6 to 10½. We'll be able to fit the young man who wants a long, narrow shoe with a very smart appearance.

OREGON APPLES SELLING CHEAP

High Freight Rates Cause
Growers to Throw Product
on Home Markets

LAGRANGE, Ore., Dec. 1.—Apples from the Grande Ronde valley are soon to be sold to Portland people at a penny apiece. The local market situation has reached the point where it is not profitable to ship the fruit east or to the middle west, according to apple dealers as the freight rates eat up the sale price and leave the orchardists nothing.

Orchardists around timber contracted their apples for a good price and the buyer paid down a small amount, rather than take the apples, it is reported, the buyer allowed the fruit to rot and the owners still have the apples.

SALFORD, Ore., Dec. 1.—Oregon peaches again have topped the market in London, according to a cablegram received here today by Robert Paulus, sales manager for the Oregon Growers' Cooperative association. In the London market a carload of winter Nells sold for \$3322 f.o.b. New York City.

Put on Sleuths to
Watch Holiday Crowds

Toys are practically the only articles being taken from Ogden stores since the campaign of shoplifting has been opened by the merchants through Miss M. Stewart, of the credit rating bureau of the Ogden chamber of commerce, according to a report made today. The vigilance of the many special detectives and others employed in the campaign, the merchants say, is such that the merchants now are able to determine if any articles are being stolen.

The merchants have reported that with the exception of small toys, such as whistles and parts of games, the system is proving to be "airtight" and the small children generally pick up these articles. Some of the youngsters have been caught and their parents have been notified of their actions.

Those directing the campaign are awaiting the capture of the first real shoplifter in order that the culprit may be prosecuted to the limit and make apparent the fact that the merchants are going to use the most rigid measures in wiping the illicit practice from Ogden.

Additional detectives and others are to be put in action in the stores from now until the holidays are over, it was said today.

SCIENCE CHURCH DECISION RESTS WITH HIGH COURT

BOSTON, Dec. 1.—The future policy of the Christian Science church lay with the full bench of the supreme court of Massachusetts today. Before an audience that included persons from England and other countries, the court heard the last of the arguments between factions within the church as to the construction of deeds of trust on which Mary Baker Eddy founded the organization and its publishing activities. Except for the filing of briefs the case was declared closed. A decision is not expected before the March sitting of the court.

HARVARD GRID SCHEDULE DUE FOR MANY CHANGES

CAMBRIDGE, Mass., Dec. 1.—The schedule for the Harvard varsity football team of next year will include several changes from that of the season just closed. It will again consist of nine games, Yale being played at the stadium November 13 and Princeton on the Tiger gridiron November 5. The six games preliminary to these will be shaken up considerably with a view to bringing in new ideas and methods of play into action against the team that is representative of the Harvard coaching system. Centre college will be played earlier than this season.

Major Moore, graduate manager of athletics, plans to try to arrange a double header for the opening date. Applications for games at the Harvard stadium have come from many institutions. Nebraska, Syracuse, Indiana, Kansas and Missouri are mentioned as teams which may come to Cambridge, although not all these institutions have requested games.

The entrance of Mr. Heinan in the race added excitement to the election and supporters of both candidates were out in force during the afternoon to obtain a large vote.

ATTORNEY TRACES WOMAN WANTED FOR MURDER

ARDMORE, Okla., Dec. 1.—Clara Smith, wanted here in connection with the death last Friday of Jake L. Hamon, Republican national committeeman, is in the southwest, and probably in the vicinity of El Paso, Tex.

Mr. Brown made known today that he had been following a "hot trail" when he left here suddenly Monday morning for an unannounced destination. He declared the Smith woman, upon leaving Ardmore, had gone through Durant, Okla., Denison, Dallas, and El Paso, Tex., buying a ticket at the latter place for El Paso.

In the search for Miss Smith since the shooting of Hamon in a hotel room the night of November 21, County Attorney Brown concluded that she would attempt to enter either Canada or Mexico. He succeeded in tracing her through Kansas.

The charge against Miss Smith, filed by Brown before Hamon's death, is assault with intent to kill.

Frank L. Ketch, who was Hamon's business manager, has maintained that Hamon accidentally shot himself while cleaning a revolver.

WIRE AND NAIL PRICES CUT BY PITTSBURG MILL

PITTSBURG, Dec. 1.—The prices of steel wire products were cut here Tuesday for the first time in several years when the Pittsburgh Steel company announced a reduction of approximately 50 cents per hundred pounds, making the new quotations on wire nails \$3.75 a keg and on plain wire \$2.25 a hundred pounds f.o.b. Pittsburgh. Barbed wire and fence staples were priced proportionately. Shipments of all unfilled orders beginning today will be invoiced at the new quotations.

"DRY" PROVISION UPHOLD.

AUSTIN, Tex., Dec. 1.—A portion of the Texas prohibition law providing that the unlawful transportation of intoxicating liquors constitutes a felony was upheld by the court of criminal appeals today. The court denied the application of J. N. Gilmore, of Collins county, for a writ of habeas corpus, holding that it is within the power of the state to control the traffic in intoxicants.

TEACHERS' UNION ENDS.—COLUMBIA, Mo., Dec. 1.—The University of Missouri Teachers' union which was affiliated with the American Federation of Labor, has disbanded. This action was prompted in part, it was said, by the feeling that the scope of the organization was not sufficiently broad. The organization was founded about a year ago.

According to statistics compiled by the Philadelphia police department, women are most careful drivers of automobiles.

Miss Florence Dooling, appointed secretary to Police Commissioner Faurot, of New York, is the first of her sex to hold that office.
